Insufficient barricading during paving maintenance works.

Unsafe lifting technique that could cause back problems.
Maintenance personnel must ensure that the main electrical panels should be kept locked at all times; in this case, this panel is located at a highly pedestrian circulation area (shopping mall) so the electrocution hazard is obvious.

Fire point during maintenance works accessibility is quite problematic.
Confined space reminder
Never forget, before entering a confined space area
• To get a permit
• To ensure proper ventilation
• To use the Confined Space tripod for access and rescue
