EUROMAINTENANCE AND MAINTENANCE NEXT

INTRODUCTION

EuroMaintenance, the largest European conference on maintenance has existed since 1972 and is an initiative of the EFNMS (European Federation of National Maintenance Societies) and organized by the Dutch Maintenance Society NVDO in 2023. Maintenance NEXT is the most important platform for industrial maintenance in the Benelux.

The largest European maintenance conference will be held in Rotterdam from 17 to 19 April 2023. At the same time, Rotterdam Ahoy will be hosting the largest technology and maintenance exhibition in the Benelux from 18 to 20 April 2023: Maintenance NEXT.

EFNMS European Maintenance
Manager Award • P. 3

Inspiring tables • P. 3

In April 2023, we will meet thousands of professionals during Maintenance NEXT and EuroMaintenance. Rotterdam will then be the Maintenance Capital of the World! The EuroMaintenance Team is proud of the many who work with us on On Our Road to EuroMaintenance 2023. We do this, among other things, with the EFNMS committees, some of which will provide a workshop during the conference in Ahoy Rotterdam. We also do this with the partners with whom we set up the Inspiring Tables. We do this with all Key Note Speakers and of course together with the sponsors.

At the end of October, we will be delighted to present the substantive program and open the registration option. Check out www.euromaintenance.net every now and then to keep up with EuroMaintenance and Maintenance NEXT.

Kind regards,

Ellen den Broeder-Ooijevaar

on behalf of the EuroMaintenance Team

“EFNMS Committee EHSEC’s (European Health, Safety and Environment Committee) vision is to continuously strengthen the cultural pillar of Safety and Environmental Protection in all maintenance activities. In this framework, EHSEC has developed an extroverted way-forward including its participation to actions that promote a sustainable maintenance. EuroMaintenance provides one such opportunity which EHSEC strongly supports. At first, EHSEC has already served as a liaison to assure the active participation of EU-OSHA during the event which will ascertain the mutual cooperation.

EHSEC serves as a source of other renowned speakers from the European HSE Network like ENETOSH and ENSHPO. Additionally, EHSEC will submit papers and deliver presentations on key sustainability-related areas and will also present their publications to all visitors. Finally, EHSEC members will support the whole event by organizing and facilitating at least two workshops. We are proud to be involved”.

PROUD ANNOUNCEMENT: EUROMAINTENANCE IS COMMITTED TO CHARITY

Gered Gereedschap is a Dutch NGO which has been making a consistent effort for craftsmen and women in developing countries for the last 40 years. Projects supported by Gered Gereedschap strengthen technical vocational education and entrepreneurship in Africa.

Their support is practical, tangible and comprehensive. From tool sets and machines for schools, fully equipped sewing workshops to the education of technical vocational teachers. All their support is directed towards one purpose: promoting technical craftsmanship as a basis for self-reliance.

Want to know more about Gered Gereedschap and the programmes they carry out in Africa under the name of EQUIP? EuroMaintenance will inform you during the upcoming months!

PEOPLE ARE PIVOTAL

Much has changed in the world of Maintenance and Asset Performance Management. However, having done projects across the globe and in a variety of industries during those years we can say (on our 25th anniversary) that one thing is indisputable: people are a key success factor. MaxGrip is a proud partner of EuroMaintenance 2023. We look forward to coming together next year with all those Maintenance and Asset Management professionals with whom we share common interests. Now that really is 'Asset Management at its Best.'

IFS Ultimo

One of the most fantastic Maintenance conferences in the world, the EuroMaintenance will take place again on 17th to 19 April 2023. Now it is time to join to this fantastic event with the most hot topics at this moment in Europe such as Artificial Intelligence for Maintenance 4.0, Safety, Asset Performance Management, Sustainability, Human Factor and Smart Industry.

I am very happy to give a contribution by two workshops such as Reliability 4.0 and Asset Integrity Management on the Asset Performance Management and Safety workshop sections respectively. On the first case, the reliability 4.0 workshop will demonstrate the intelligent and easiest way to perform reliability prediction and measure the asset reliability performance as part of Asset Management process.

On the second case, the Asset Integrity Management workshop will demonstrate how the asset integrity management process is integrated to the Asset Management routine and manage the safety critical asset on daily basis".

Eduardo Calixto, ECC Founder & CEO - RAMS Expert, Germany

BECOME A PARTNER

EuroMaintenance is the perfect opportunity to present your company internationally and to the right audience. We offer 3 limited partnership packages to choose from. Our partnership packages offer you among other things the opportunity to host a workshop, to host a stand, congress tickets and much more. Do you want to participate? Please fill out [the form](#) for more information. You can be a part of the largest European maintenance congress!

EFNMS EUROPEAN MAINTENANCE MANAGER AWARD

EuroMaintenance welcomes the Salvetti Foundation in April 2023. It is with great pleasure then that, for the sixteenth time, EFNMS and the Salvetti Foundation will be able to award the winner of the EFNMS European Maintenance Manager Award (EMMA). This 16th contest took a rather long period due to Corona issues. President Stefano Salvetti; "We discussed extensively how to organise a formal award ceremony after postponing EuroMaintenance 2020 and 2021 due to the pandemic".

During the next EuroMaintenance event in Rotterdam the formal handover of the award will take place. Salvetti; "I am looking forward to EuroMaintenance at Rotterdam where the NVDO, Ahoy Rotterdam and EFNMS will take care of an excellent conference and Rotterdam will be the Maintenance Capital of Europe. I will be there!"

Stefano Salvetti, President of the Salvetti Foundation

INSPIRING TABLES

Part of the EuroMaintenance program are the 'Inspiring Tables'. I am very proud to be the host of this concept - three tables, three themes. My job will be to ensure that the conversation is not only inspiring, but also informative, educational and entertaining as well. My name is Laura van der Linde and I have been working in Maintenance and Asset Management for the past seven years. Now in marketing and previously as editor-in-chief of an industrial journal about maintenance and Asset Management. So I know the field.

The trends and developments, and also the challenges and difficulties. The guests at the Inspiring Tables will share their experiences and it's my job to ensure that the audience will gain something from this. From a small eye-opener to completely new knowledge about the five themes of EuroMaintenance, being the event of the year for gaining information and... inspiration. I am really looking forward to it.

Laura van der Linde, Marketing Communications Coordinator Mainnovation
