

CALL FOR PAPERS, Special Sessions & TUTORIALS

The 2025 IEEE International Conference on Prognostics and Health Management (ICPHM 2025)

June 9 – June 11, 2025

University of Colorado Denver, USA

ICPHM 2025 is the leading event for **Prognostics and Health Management (PHM)**, uniquely sponsored by **IEEE**.

This conference serves as a platform for innovative discussions. We invite papers, special sessions, and tutorials on theoretical and practical advancements in PHM, focusing on system reliability, asset lifespan, and advanced techniques across sectors. Join us to explore the latest in PHM technology and research.

PHM topics and applications include but are not limited to:

- Aerospace Systems
- Networking and Broadcast Technologies
- Engineered Materials, Dielectrics and Plasmas
- Transportation
- Signal Processing and Analysis
- Computing and Processing
- Power, Energy and Industry Applications
- Robotics and Control Systems
- Components, Circuits, Devices and Systems
- Multimode Systems
- Algorithms and Implementation

Important Dates

Draft Full Paper	February 28, 2025
Notification of Acceptance	February 3, 2025
Author Registration Due	March 18, 2025
Final Manuscript Due	April 1, 2025
Conference Dates	April 1, 2025
	June 9-11, 2025

All presented conference papers will be submitted to IEEE Xplore® for publication.
