

# ASSET MANAGEMENT AT ITS BEST

EUROMAINTENANCE 2023

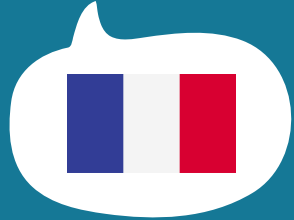

## THANKS TO ALL!

NVDO looks back on a fantastic and unforgettable EuroMaintenance in Rotterdam. Special thanks to the sponsors with extra big thanks to SKF, IFS and Mainnovation. 37 Workshops were incredibly well attended. 31 countries have maintained and expanded their international network. 13 Keynotes captivated the participants every day and the Inspiring Tables gave the best practices. And of course a big THANK YOU to all visitors, EFNMS and Ahoy Rotterdam. Working on this project has been a great honor and the credits are for Ian van den Brink, who was the real projectleader during three days of EuroMaintenance in stead of me.... . We look forward to join the EuroMaintenance in Rimini, Italy next year.

Ellen den Broeder-Ooijevaar  
Projectleader EuroMaintenance

"The organization of the EFNMS meetings and the Euromaintenance event was absolutely perfect. I really enjoyed these days in Rotterdam and I can imagine the enormous preparation work it was for you. I attended excellent workshops, keynote speeches and round tables and had very interesting discussions with several persons. I'm not saying this to please you, it is my real feeling. Especially, Ian and Laura have brought enthusiasm, youth and a lot of professionalism during these days. It's great to see that and very encouraging for the future! Thank you very much also for these photos which will bring back good memories. A big THANK-YOU for all of this!"

"Many thanks to you and your great team, not only for the pictures, but for the exceptional hospitality and opportunity to get together and work in the remarkable premises of the Grande Dame. I feel honored and delighted to collaborate with the EFNMS community, and I am looking forward to our future success"

"Proud of Alex Veersma, Maria Ryytty, Jeff Versterre, Patrick Beekman, Carlijn Donders, Freddy Vos, Niek Dillerop, Bas Beemsterboer, Anneloes van Renselaar, Ellen den Broeder, Laura van der Linde and all other IFS and IFS Ultimo customers, partners and colleagues. And all other people from NVDO, EFNMS Maintenance NEXT and Rotterdam Ahoy Convention Centre who contributed to this great event"

"Hoy nuestro compañero David Lopez, Director de Innovación de Sistplant ha liderado el workshop **"Robots doing maintenance?"** de Euromaintenance, el mayor congreso de mantenimiento organizado este 17, 18 y 19 de abril 2023 en Rotterdam Ahoy. **Enhora buena!** Muchas gracias a todos los asistentes y a los organizadores NVDO, EFNMS, Rotterdam Ahoy, por darnos la oportunidad de participar en esta maravillosa iniciativa"

"Met veel trots kijk ik terug op drie dagen EuroMaintenance en de eerste twee van drie dagen Maintenance Next in Rotterdam Ahoy!"

"EuroMaintenance, het congres voor de Maintenance & Asset Management community. Drie dagen vol met keynotes, workshops en inspirating tables. Maar bovenal: samen verenigen als sector. Verbinding zoeken om samen de uitdagingen te tackelen. Uitdagingen die we allemaal op ons af zien komen. Speciaal dank aan Ellen den Broeder-Ooijevaar (wat een energie heb je er de afgelopen jaren in gestoken!) en Ian van den Brink van NVDO en het hele team dat heeft bijgedragen aan een geslaagd congres!"

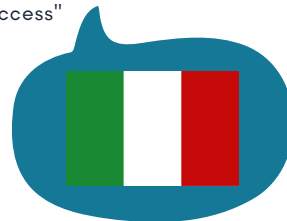

"Hele mooie dagen gehad op Euromaintenance 2023 in Rotterdam. Een goed, inhoudelijk programma met inspirerende sprekers en gave workshops over maintenance en asset management. Ook fijn om quality time door te brengen met hele gewaardeerde relaties die uitgenodigd waren door mijn collega Christian van Vessem. Letterlijk daarnaast nog de opening meegemaakt van Maintenance NEXT waar we met Techsharks prominent vertegenwoordigd zijn deze week. Dit alles past bij onze visie om als technisch dienstverlener op te kunnen treden als 'beste werkgever', om zodoende de doelstellingen van onze 'beste business partners' te kunnen realiseren. Per slot van rekening zijn je mensen je allerbelangrijkste asset!"

"And lets not forget the Driving Force behind the success, from the very early lobbying phase to the event itself Ellen Den Broeder-Ooijevaar. YNWA"

"Thank you very much Ellen for allowing us this opportunity to contribute to an amazing event. You and your team at the NVDO and the EFNMS delivered an amazing EuroMaintenance to bring maintenance and asset management to the next level!"

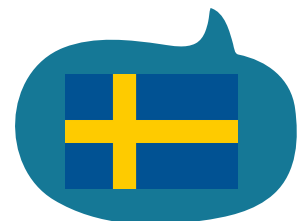

"Het waren drie fantastische dagen! Jullie mogen met trots terug kijken op EuroMaintenance Ellen den Broeder en Ian van den Brink"

"Thank you Ellen and Ian. You both did a great job. And for me personally; The Salvetti Foundation award ceremony was also a great success"

"Dear Ellen and Ian, It is really a pleasure listening so positive comments by everyone participated in EuroMaintenance23! Congratulations to both of you for making every small detail of EM23 in a perfect way! Many thanks from all of us for such a great experience"

"It was wonderful to learn what maintenance is today and to discuss what will be different in the coming years. I was an honor to represent the Škodagroup at the biggest maintenance conference in Europe. Warm thanks to ČSPU for the invitation and EFNMS and friends from NVDO for organizing this conference. Major challenges await us, but I am sure that we will overcome it together"

"This week I was at the Euromaintenance conference and Maintenance NEXT exhibition in Rotterdam. I participated in valuable workshops and demonstrations on how to collaborate with Asset Management and Maintenance Professionals. Extremely useful to build your network and to demonstrate the value of Arcadis Gen EDA Asset Investment Planning tooling"

"Enjoyed every minute in the Netherlands this week participating in the EuroMaintenance conference in Rotterdam. We experienced significant interest in our data driven approach to optimizing industrial asset performance. Our European colleagues came to us with a genuine curiosity and left excited about the possibilities for performance and sustainability improvement. There was time for a little fun too!"

"Nu har jag gjort presentationen som Keynote speaker under EuroMaintenance 2023 i Rotterdam. 😊 Den var uppskattad av publiken och jag fick många frågor under hela dagen. Le och hela världen ler med dig. 😊"

"I like to attend conferences. That is good for my network and my knowledge. I can honestly say that Euromaintenance was a high-level conference where everything was right. I don't often experience such high level and very well organized organisation. I want to thank the NVDO for that, it was A M A Z I N G"

"Henk Wynjeterp and Justine Pillay from our Netherlands branch just returned from the buzzing Euromaintenance conference and Maintenance Next exhibition. It was an excellent opportunity to network and gain valuable insights into the latest trends and technologies in asset management. They came home with three key takeaways:

1. The increasing importance of digitalisation in asset management, from predictive maintenance to asset tracking and even augmented reality incorporated into executing maintenance tasks
2. The growing focus on sustainability, companies seeking to reduce their environmental impact through energy-efficient solutions and sustainable practices
3. The need for collaboration and partnerships between companies to drive innovation and stay competitive in a rapidly changing landscape.

We look forward to implementing some of these insights!"

"Ik wil jullie complimenteren met de organisatie van Euromaintenance! Het zag er allemaal fantastisch uit en alles was goed geregeld. Dank daarvoor!"

"Thank you for allowing us to share our experience with the multi-site maintenance benchmarking and maintenance excellence journey (XLR8) at FrieslandCampina. Big compliment to the project team members and the local staff of the sites globally that achieved an amazing performance boost in maintenance and asset management"

"Bedankt Ellen!! En nogmaals bedankt voor de toporganisatie van Euromaintenance. Wij vonden het weer erg leuk om er een bijdrage aan te mogen leveren"

"I would like to share some impressions about the GA meeting and EM 2023. When I arrived at ss Rotterdam I felt the spirit of some old times from the Humprey DeForest Bogart era and his words " The whole world is three drinks behind. If everybody in the world would take three drinks we would have no trouble....."

I find that the location was excellent choice for the GA as well as the meeting spaces which is the reason that we had perfect communication and pleasant meeting. I was especially moved by the reunion with our legendary member Wout and the election as an honorary member of EFNMS. With this choice of meeting place NVDO have raised the bar for the quality of GA meeting.

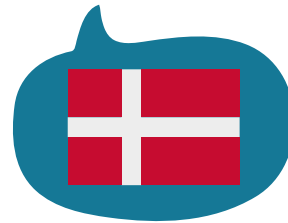

Regarding the EM 2023 also I would like to express my praise for the originally balanced program of 45 minutes of lectures with 15 minutes break, the round table in the second part of the day returns the attention of the participants and possibilities for networking during the break and also an IT platform for monitoring the program and mutual communication and finally the long awaited Euromaintenance met my expectations.

Thanks again to whole NVDO team"

"Thanks a lot - also the quality of the pictures is excellent"

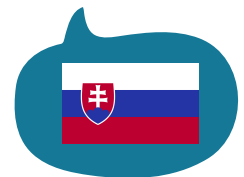

"NVDO; You did such a great job! I understand November 24th will be the annual meeting? Maybe we are able to join this fantastic maintenance network again"

"I went to euromaintenance for 1 day. I stayed for 3 days.... a big compliment to the organization by NVDO. Made many new contacts and learned a lot. Grateful that Ellen arranged for me to participate in a workshop that I was not registered for. Thank you for the super nice dinner at the football stadium"

"Congrats!"

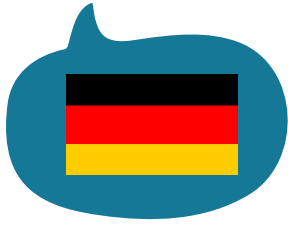

"Back home again and I also would like to express my gratitude for the fruitful and friendly week we spent together during our meeting on S.S.Rotterdam as well as during EM23. Our meetings and events are always mind-challenging and provide knowledge as well as opportunities for networking not to mention the social part of getting to visit new places and create "New memories". Thank you for being there and also a great many thank you to the organizers that invested so much time and effort to achieve this wonderful result!"

"That was inspiring and fun! Asset Management at its best at EuroMaintenance"

"As one can imagine - hopping between 2 large events isn't always fun - but what makes it worth are the amazing discussions that follow after delivering a relevant keynote! Many thanks to our valued AR partner Ideo B.V. for the kind invite to the very energetic Euromaintenance event at the impressive Rotterdam Ahoy!"

"Joerg Unger, senior vice president Low Carbon Emission Technologies & Projects at BASF talks about Sustainability and Resilience. 'What was right in the past was right in the past, but might not be appropriate to create a sustainable future.' Great presentation on how this also impacts engineering and maintenance. Asset Management at its best at Euromaintenance"

"Last week I attended Euromaintenance conference with MaxGrip. They provided five workshops and two keynotes, it was a great success overall!"

"LinkedIn spat haast uit elkaar van de positieve reacties. Superleuk! Wat een topprestatie hebben jullie geleverd. Diep diep respect voor het NVDO team"

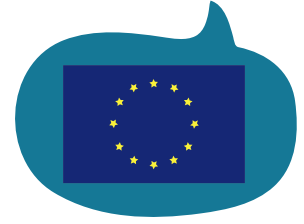

"Hoi Ellen en Ian, Wat een topteam zijn jullie! Ellen als de motor, Ian als de moderator. Super wat jullie voor elkaar gebokst hebben, complimenten. Wij hebben genoten van Euro maintenance in Rotterdam en buiten dat ook nog eens leuke nieuwe mensen ontmoet. Dank jullie wel NVDO Houten"

"Goed om bij de EuroMaintenance 2023 conferentie in Rotterdam van NVDO te zijn. Ook de beurs Maintenance Next is gaande en dit jaar gecombineerd. Vanuit Compris is o.a. ir. Shailin Sewmangel aanwezig om kennis op te doen en te delen met aanwezigen"

"Interessante inzichten op Euromaintenance van over het belang van storingsregistratie bij het ontwikkelen van predictive maintenance. Zonder failures geen validatie van de modellen en algoritmes. Workshop 'practical issues in maintenance data collection, processing en analysis' van Tiedo Tinga en Chris Rijdsdijk"

"Wat een prachtige EuroMaintenance hebben jullie neergezet! De ruimte, de rust, de atmosfeer, het internationale, de kwaliteit! Echt een hele mooie ervaring voor allen die hebben deelgenomen. Knap gedaan! Proficiat met een amazing EuroMaintenance! Trots dat we dit als land zo hebben gehost!"

"Today at euromaintenance, as a trainer, I will be conducting a workshop and talk about unintentionally biased decision making, why we subconsciously do this, the risks that are involved with it and how this may effect (large) maintenance and/or asset management projects. Needless to say, I will also offer a practical and easy to implement solution from the Continuous Improvement toolbox to mitigate this risk as much as possible. I would like to thank #NVDO for the opportunity to be able to talk about this"

"On behalf of the EFNMS community, we would like to express our warmest congratulations to you for the excellent organization of EuroMaintenance23. This event was undoubtedly one of the best EuroMaintenance conferences ever held. The quality of the speeches was exceptional, and the format of the program was very well-structured. The premises were excellent, and the EuroMaintenance exhibition and the MaintenanceNext added significant value to the main conference. Furthermore, the social program was innovative and enjoyable for all the participants. We would like to express our special thanks to Ellen Den Broeder and Ian van den Brink for their outstanding efforts in taking care of every small detail of the conference, making it an unforgettable experience for all attendees. We hope that we will have the opportunity to meet you again at EuroMaintenance24 in Rimini in October 2024"

"We appreciate all European keynotes who have shared their knowledge. Unbelievable what Europe achieves when it comes to maintenance. A compliment to the NVDO for making it possible to tie these keynotes to the Euromaintenance conference. A huge achievement. Thank you for that"

"It was simply Excellent! Thanks NVDO for this opportunity in a just perfect location!"

"Ik was bij vorige Euromaintenance conferences en kan met recht zeggen: Dit was de Beste! Wat een topprestatie van de nvdo !"

"Thank you Ellen Den Broeder-Ooijevaar as well as the EFNMS committee for allowing us to share the experience of this great program with other asset owners at the EuroMaintenance"
